SMEG CATALOG DESIGN 2023

SMEG

Colour, design and technology. Smeg has designed innovative household appliances for all everyday environments since 1948.

Distinctive domestic appliances developed in collaboration with leading architects of the world.

Products that express “Made in Italy” by perfectly combining design, performance, and attention of detail.

SMEG, Technology with Style.

Smeg HQ, Guastalla Reggio Emilia, Italy

HISTORY

Smeg has been producing domestic appliances with the finest Italian design for more than 70 years, with a particular focus on aesthetics, ergonomics and fuctionality.

Smeg was established in 1948 as an enamelling plant, working with metals; the acronym of Smeg (Smalterie Metallurgiche Emiliane Guastalla) serves as a memory of the initial activity carried out by the company.

Following the Second World War, the company anticipated a demand for domestic appliances, made possible by a new level of economic affluence equipping domestic kitchens with better tools to cook and clean more efficiently.

For Smeg, style is first and foremost a distinctive notion, a product communication approach to enjoying the household appliance.

"Combining outstanding industrial design with premium build quality"

GOOD DESIGN

reddot design award

HALL OF

SMEG

AWARDS

Smeg has received a number of important prizes and awards over the years from leading institutions and international magazines as a result of its deep understanding of aesthetics and the quality of its appliances.

For 70 years, Smeg combine aesthetics and technology, creating appliances that offer both style and functionality. This awareness has allowed Smeg to gain prestigious recognition from important institutions and international magazines, confirming its leading role at an international level.

These important awards confirm the quality of design, technology, research and development of unique solutions which drive Smeg in its ambitious challenge to guide the evolution of kitchen design.

GALILEO

HERE IS WHERE THE INSPIRATION WAS BORN TO CREATE GREAT DESIGN ICONS.

WHAT IS GALILEO MULTICOOKING TECHNOLOGY ?

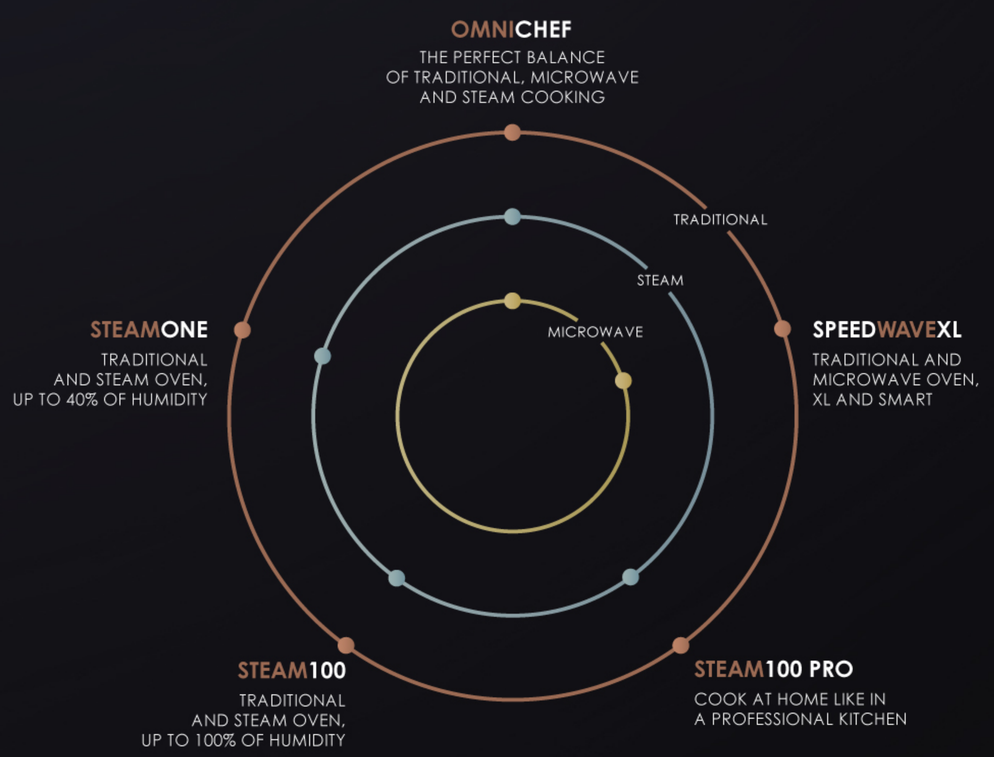

It is a new technology that revolutionzies ovens from the inside thanks to professional algorithms that combine traditional cooking, microwave and steam.

GALILEO

GALILEO
MULTICOOKING
TECHNOLOGY

IT IS FROM THIS GREAT TRADITION THAT OUR INNOVATIONS START SMEG PRESENTS :

GALILEO MULTICOOKING TECHNOLOGY

MULTICOOKING TECHNOLOGY: FASTER, EASIER, HEALTHIER

Prepare your dishes faster, getting even healthier foods. Through the Multitech and Multistep functions you can combine up to three cooking methods thanks to professional algorithms and get exceptional results.

SMART COOKING

Professional accessories and 150 automatic recipes to help you bake your favorite food.

NEW CAVITY, MANY INNOVATIONS

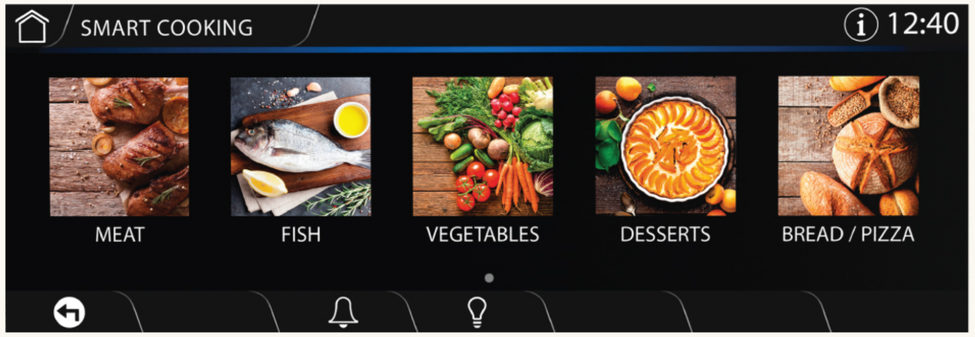

Lots of innovations are hidden in the new ovens: a completely renovated baffle, LED lights, an innovative new generation steam system and microwave technology.

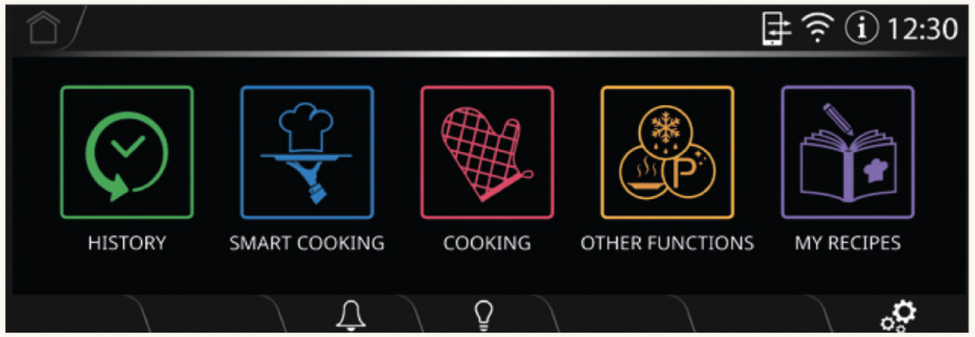

A++ EFFICIENCY

Great attention to sustainability with 10% of energy savings.

VIVO SCREEN

The width of the screen enables **more information** to be displayed, which is now even easier to read thanks to **more intuitive names** for the cooking functions and **new icons with bright colours and graphic effects.** The **illustrative photos of the dishes** enable you to get a "preview" of your meal before taking it out of the oven.

Available in **VIVOscreen** with 4.3" display and **VIVOscreen MAX** with 6.3" display.

THE NEW GENERATION OF OVENS WITH VIVOscreen DISPLAY

The new **VIVOscreen displays** are the fruit of the union between **aesthetics and technology** that has always driven Smeg's research and innovation in the world of domestic appliances. Designed for the company's top-of-the-range ovens, the VIVOscreen displays are even simpler and more **intuitive** to use and boast new **features** which help you to create your favourite dishes with professional results.

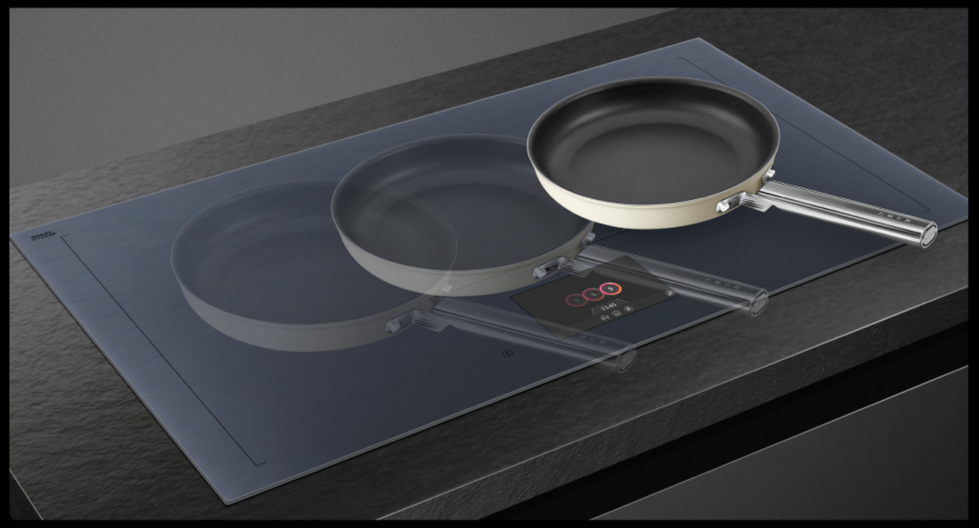

Sophisticated design is coupled with ease of use, with **horizontal and vertical scrolling** which allows you to set your choice of parameters. **Multi-step cooking** is one of the handiest functions available, enabling professional results to be achieved; it allows up to **3 cooking phases with different functions to be set during a single cooking session.** In addition, the **new timer menu** enables up to **3 timers to be set, independent of cooking.**

AREA

INDUCTION HOB AREA VIVO SCREEN MAX, INTELLIGENT COOKING WITH A TOUCH OF COLOR

Smeg induction hobs are perfect allies for cooking with practicality and safety, without compromising on cooking performance. In addition, they are true **design objects** that embellish the kitchen environment with a refined and minimal aesthetic, giving each space a contemporary avant-garde character.

The **Area Vivo Screen Max** SIA1963D and SIA1963DG induction hobs are the ideal solution for consumers looking for freedom and flexibility of use, with the possibility of using up to six pots of different sizes. Equipped with a **Glassy ceramic glass** surface with screen printing under the glass, they have a much greater shine than traditional induction glasses and are totally smooth, for silent, easy movement of the pots and easy cleaning.

In addition to a renewed design, the **Area induction hob** is equipped with innovative technologies that adapt to every need. The **high-resolution 7 '' TFT controls** offer a wide range of customizable functions. The display shows the position, size and shape of the pan for simple and intuitive control of the hob and the **Follow Pot function** allows you to freely move the pans on the hob while maintaining the initial settings, without having to stick to pre-set cooking areas. The **Auto-pot detection function** is also designed to automatically recognize the position of the pots on the hob, saving the user from having to select the correct area.

DOLCE STIL NOVO

Functionality merges into the aesthetic in which darkness becomes light. Noble materials, monochromatic surface and copper and stainless steel trims that return as a leitmotif of the whole range.
Styling in black eclipse glass and refined copper or stainless-steel detailing to create a timeless, elegant aesthetic.

PORTOFINO

Traditional concepts applied to contemporary living.

A picturesque harbour surrounded by olive trees, is a precious jewel nestled on the edge of the Golfo del Tigullio. The Portofino range, inspired by the Mediterranean hues of its Ligurian ports, brings romance and happiness to the kitchen.
